LIGHTSPACE is a young energetic architectural and interior design studio focused on their vision of providing cutting-edge design solutions for maximising their client's investment. This focus has placed the company at the forefront of contemporary design.

We pride ourselves in the belief that we are able to find effective design solutions to any one of our clients’ myriad of challenges and, as a result, have a wide range of projects in our portfolio. These include commercial, retail, residential, hospitality and restaurants – a list that continues to grow hand-in-hand with our evolution.

We are certified Level 4 BEE compliant and a member of the following organizations:

• South African Institute of Architects
• South African Council for the Architectural Profession
• South African Green Building Council
• Cape Institute for Architecture
